

# Construction diverts traffic to Phillips Murrah offices

**UPDATE:** Due to the progress of [Project 180](#), access to roads in the downtown OKC Central Business District changes very often. This may affect how to get to our parking garage, located on Harvey Ave, just south of Park Ave. For the latest information about how to access [Phillips Murrah Client Parking](#), please [click here](#).

---

Downtown construction on the intersection of Park Avenue and Harvey Avenue will shift incoming traffic throughout the week.

Construction is currently in Phase 2 of completion, so access to Phillips Murrah client parking is limited to access only from Harvey Avenue (see graphic above).

Client parking will remain fully accessible throughout the duration of the construction project, which is slated to be completed by Nov. 22 (dependent on weather).
