

# Phillips Murrah Breaks Ground on Modern New Midtown Office Headquarters

From L: Attorneys Jonna Vanderslice, Mark Hornbeek, Peter Wright, Krishan Patel, Camille Burge, Austin Ray, Jason Sansone, and Kayla Kuri participate in the groundbreaking of the new Phillips Murrah headquarters office in Oklahoma City's Midtown District.

MAR 13, 2023 – Phillips Murrah is proud to announce the groundbreaking of the Firm's new modern, mixed-use Midtown headquarters. One of the motives for relocating is to participate in and benefit from the vitality of Midtown.

"The Firm is excited to initiate construction of our new office building this morning," said [Dawn M. Rahme](#), Phillips

Murrah President and Managing Partner. “Today was just the first step in our relocation to Midtown, and we’re looking forward to moving in during the Summer of 2024.”

Architect rendering of Phillips Murrah's new Midtown headquarters.

The design of the new, five-story office building is intended to represent the vibrancy of the law firm, featuring wall-to-wall, floor-to-ceiling windows and large open spaces. Phillips Murrah will occupy the entirety of the top three floors, which will include modern collaborative work areas, generous social common spaces, and convenient, on-site parking access, all designed to better suit the Firm's workplace and client service models. A large, outdoor patio on the east side of the third floor will be a social gathering place exclusive to the law firm with a direct view of the Oklahoma City skyline. The bottom two floors will include a restaurant, retail, and additional office space.

The new [Midtown Renaissance](#) project, located on the south side of 10<sup>th</sup> Street between Hudson and Walker Avenues, is designed by [Fitzsimmons Architects](#) and is being built by [Lingo Construction](#).
